

SOUTHEAST ALASKA FISH HABITAT PARTNERSHIP

Southeast Alaska Fish Habitat Partnership

419 6th Street, Suite 200
Juneau, Alaska 99801
(907) 723-0258
www.seakfhp.org

Vision

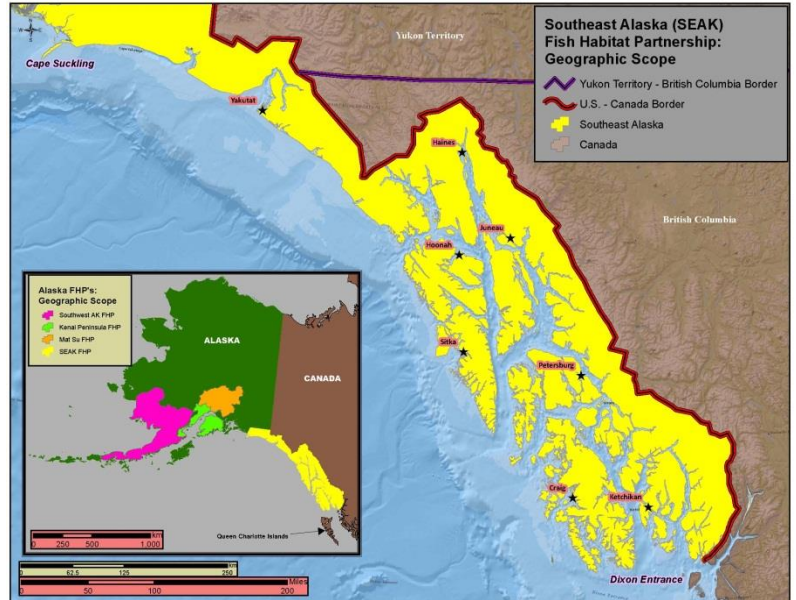

Our partners share a common vision to ensure healthy, thriving habitats that support all life stages of resident, anadromous, estuarine and marine-dependent fishes across their historical range in Southeast Alaska.

Mission

We work to support cooperative fish habitat conservation, restoration and management across Southeast Alaska with consideration of economic, social and cultural interests of local communities in our endeavors.

Geographic Scope

Our partnership encompasses the lands, freshwaters, estuaries, nearshore areas, marine ecosystems and communities of Southeast Alaska. It is defined as extending from Dixon Entrance at the South, to Cape Suckling in the North, eastward to the U.S. border, and includes all associated lands, freshwater and marine waters in between.

Core Partnership Functions

- **Grow diversity and capacity of the partnership linking natural resource science and management with regional interests, local and traditional values and community needs**
- **Build organizational strength & perseverance of the partnership for long-term sustainability and functionality**
- **Provide services to partners that foster regional cooperation and understanding and result in improved on-the-ground conservation efforts across Southeast Alaska**
- **Facilitate regionally relevant fish habitat conservation strategies across Southeast Alaska - specific conservation priorities are to protect fish habitat in freshwater systems, estuaries and the nearshore/marine areas of Southeast Alaska, maintain and restore water quality and quantity in the region, and restore and enhance fragmented and degraded fish habitats in impacted areas.**

Growing Partner Network

*Southeast Alaska Watershed Coalition—City and Borough of Yakutat & Juneau—Trout Unlimited—The Nature Conservancy
US Fish and Wildlife Service—NOAA—US Forest Service—Pacific States Marine Fisheries Commission—Sitka Conservation Society
Alaska Department of Fish & Game—Alaska Department of Environmental Conservation—Southeast Alaska Land Trust
Central Council Tlingit Haida Indian Tribes of Alaska—Prince of Wales Watershed Association—Sealaska—Tatoosh School
Southeast Alaska Conservation Council—Rivers without Borders—North Pacific Landscape Conservation Cooperative
Alaska Coastal Rainforest Center—University of Alaska—University of Alaska Southeast GIS Library—Sitka Sound Science Center*
